

# Recommended PC Requirements for Keri Software

## Reference Document

---

This document provides minimum PC hardware requirements to ensure acceptable software system operation in typical access control applications. Access control applications with large numbers of controllers and/or cardholders should consider upgrading from the minimum requirements.

*NOTE: PC capability, cost, and accessibility is constantly changing. This document provides Keri's recommendations, but is subject to change as PC hardware changes.*

- Generic Requirements for all PCs
  - Ethernet Adapter
  - DVD Drive
  - Keyboard, Mouse, Display
  - USB Port(s)
